

## ***Empowering Oil & Gas with Proven Results***

In oil and gas, every decision impacts profitability. Without the right tools, reserves management, portfolio planning, and capital allocation become costly, inefficient, and error-prone. Omnira Software is the trusted technology partner for E&P, providing a comprehensive suite of solutions to improve efficiency, data confidence, and decision-making.

### ***Measurable Results***

- **97% Client Retention** – Proven reliability and long-term value.
- **55% Permian Reserves** - Managed using our flagship product, MOSAIC.
- **100% Implementation Success** - Proven onboarding success with strong change management support.
- **3x Award Winner Customer Service** - Proven onboarding success with strong change management support.
- **5 Powerful Products** - Covering planning, portfolio analysis, reserves, and asset performance.
- **33% Team in R& D** - Driving continuous improvements and innovation.
- **40% Year-over-Year Growth** – Continuous product innovation and industry trust.

### ***Why Companies Choose Omnira Products***

- **A Single Source of Truth** – Consistent, accurate data across planning, reserves, and operations.
- **Built for Compliance** – PRMS, SEC, NI 51-101 reporting standards, automated and reliable.
- **Faster, Smarter Decisions** – Reduce reporting cycles from months to weeks—or even days.
- **Scalable for Any Organization** – From independents to supermajors, Omnira grows with your business.
- **Seamless Implementation** – A 100% onboarding success rate ensures smooth transitions with minimal disruption.
- **Enterprise-Grade Security** - ISO 27001-certified, ensuring the highest standards in data protection.

### ***A Partner for the Future***

Beyond software, Omnira provides expert guidance, dedicated support, and a deep understanding of E&P challenges. As part of the Carina portfolio of Constellation Software (TSX-listed), we bring stability, innovation, and a commitment to long-term success.
